

The California Expedition.

The California regiment is now fairly encamped on Governor's Island, where they are drilling and making preparations for embarkation in about three weeks. They will go out in three merchant ships with a convoy of the sloop of war Preble. The regiment will make on the voyage eleven stopping places. These will probably comprise most of the South American ports on both sides of the country. They will sail about the 20th.

A company of mounted men in addition is being raised for California, in consequence of the disappointment of hundreds of enterprising young men in not being able to join Col. Stevenson's expedition, which was limited to 800 men. This company will be officered by men of talent and military experience. Among the number under Col. Stevenson's command, are two from this State, H. A. Schoolcraft, son of Mr. Schoolcraft of Greenfield, and Cyrus Harmon, brother of one of the publishers of this paper. Good luck and quick passage to them.—*Det. Free Press.*

DREADFUL COLLISION.—Loss of Life on the St. Lawrence.—On the night of the 29th ult., about 12 o'clock, as the steamer Quebec, from Quebec, for Montreal, was approaching the wharf at Three Rivers, the Rowland Hill, which was racing with the Lord Sydneyham, and going at fearful speed, came in collision with her. The crash was terrific, it is said, and striking the Rowland Hill amidships, completely disabled her, and she floated past the other, a complete wreck. Two men were crushed by the collision, and several of the passengers were drowned. It is supposed they jumped overboard, in their fright, but the number could not be ascertained. Assistance was promptly given, and those of the sufferers who remained on board, and the baggage, were taken from the wreck.

THE MORMONS.—The whole body of these unfortunate people are represented as being in a very destitute condition. Not only are they without food, but in want of shoes and clothing. It can hardly be that so many of these persons, especially the aged and sick, women and children, must perish during the fall and winter. The main body, the St. Louis Republican states, are encamped at a point known as Bellevue, where there is no game and no means of subsistence, except a very scanty supply of fish.—*Beacon Light.*

THE ARGENTINE REPUBLIC.—The New York Sun has received letters from Montevideo to the 15th of June, which states that a fleet of one hundred trading vessels, of different nations, under convoy of the French and English steamers, entered the rivers of the Republic, and after obtaining cargoes, were protected in their passage to the sea again. Four vessels of the fleet of traders were driven ashore by the Argentine battery at San Lorenzo, on the Parana. They were set on fire by the English force, to prevent their falling into the hands of the Argentines.

PERPETUAL MOTION ATTAINED.—This is a great announcement to make, but if our senses do not deceive us, Mr. Van Cott, who is now exhibiting his machine at the Tremont House, has worked out the problem. We profess no great mechanical skill or perception, but the machine seems to us what it professes to be, self-moving, and we should advise the curious in such matters to go and see it. It is constructed on the principle of gravitation combined with the lever power, and carries a clock most perfectly.—*Chicago Democrat.*

FEMALE RIOT.—About forty females of the village of Utica, Michigan, assembled lately, and paraded in a body, armed with axes, hammers, &c., to a certain bowling alley, and knocked it down in the regular "ten strike" style, completely demolishing the place. They would have done the same thing to the proprietor and their husbands, had they found them there at the time.

THE OCEAN RACE.—The steamers Cambria and Great Britain commenced a race of four thousand miles this day, one from Boston and the other from this port. The result of this race will settle forever the utility of the screw or submerged propeller, and great interest is felt as to the result, by ship builders and commercial men.—*N. Y. Herald.*

John Bull begins to think that he holds the Canada by a precarious tenure. In alluding to them the London Herald, says:

"The British population in the Canada and adjacent provinces is almost, if not altogether, as numerous, as the population of the United States was in 1776—with this advantage, that in hostility to England they might count upon eighteen millions of allies along the whole line of their southern frontiers, where the republican had not one; while we should not have a single ally in the new world, not one even of those Indian tribes that seventy years ago rendered us such important aid."

THE COURT OF INQUIRY.—The Court of Inquiry in the case of Gen. Gaines, proceeded on Tuesday to the examination of witnesses. Captain Montgomery, of the 8th Infantry, who commanded the left of the right brigade, and who manifested so much coolness during the cannonade of the 9th, when his horse was shot under him, and who was wounded in the battle of the 9th of May, appeared before the Court and was under examination about two hours. Capt. M. testified he considered the situation of Gen. Taylor "eminently critical" at the time that Gen. Gaines took steps to call for volunteers. The whole of his interesting narrative was strongly justifiable of Gen. Gaines. The Court will probably sit several days longer.—*Norfolk Beacon, 6th.*

Elections.

NORTH CAROLINA.—The Philadelphia North American says that letters have been received by members of Congress from North Carolina which render it certain that Governor Graham has been re-elected, by from 8 to 9 thousand majority, and that the Whigs have the legislature by some 20 majority on joint ballot. This will give the Whigs 2 U. S. Senators.

INDIANA.—Whitcomb, democrat, probably elected Governor. The Journal of Commerce has returns of 22 whig 20 democratic Senators, including those who hold over elected, and says, 8 Senators to hear from. Last year the Senate was a tie. Should the remaining district come in as before, there will be in the full Senate a democratic majority of two. The House is almost entirely whig.

KENTUCKY.—A whig legislature is elected by a reduced majority.

Extract of a letter published in the New York Journal of Commerce, dated London, July 3d.

Our Bank of England is getting swamped with gold. The merchants to whom it is consigned have the greatest difficulty in getting bills on the continent to remit for it.

CAPT. THORNTON ACQUITTED.—A Richmond paper has seen a letter from Adjutant General Jones, which states that the court martial proceedings in the case of Capt. D. D. Thornton, 2d Dragoons, have come to hand. They exhibit the gratifying fact that he is acquitted on all charges on which he was tried.

HEALTH.—This being the season when all are most subject to the complaints incident to this climate, we would advise all to secure a never-failing preventive, by purchasing a few boxes of the "Persian Pills." They are decidedly the most popular pill in use, and beside, the best. Read advertisement carefully in to-day's paper.

Dr. BRAGG'S Indian Queen Vegetable Sugar Coated Pills

COMPRISE the Tonic and anti-Bilious. The Tonic Pills are acknowledged to be the most successful medicine ever offered to the public for the treatment and cure of Ague and Fever, Chills and Fever, Biliousness, Headache, Indigestion, &c. In intermitting or ague, organic derangement has taken place. These Pills never fail to make a permanent and lasting cure, within twelve to eighteen hours, without the aid of any other medicine. So great indeed has been their efficacy, that a permanent cure has been effected in a single day, and has become so generally known, and so extensively used, throughout the western and south-western States, that such a warranty is no longer asked or expected.

THE INDIAN QUEEN VEGETABLE SUGAR COATED TONIC PILLS.

Will be found highly beneficial in all cases of debility, (especially in those cases produced by repeated and long continued attacks of Fever,) and in promoting digestion. From one to three of these pills taken 30 or 35 minutes before eating, will set on foot a healthy appetite, promote digestion, give tone to the stomach, and invigorate the system generally. Price \$1.00.

Dr. Bragg's Sugar Coated Pills have been thoroughly tried, and long experience has established their superior efficacy over every other medicine offered to the public for the radical cure of every form of disease, and particularly of those bilious affections so prevalent throughout our southern and western States. The proof of this is found in the fact that those who have once used these pills, have ever after preferred them, and resorted to their use in preference to any other kind of medicine—returning regularly at the commencement of each season, for their valuable medicine—and using their friends to do the same. Innumerable cases of child and fever, obstinate and of long standing have been suddenly cured by Bragg's Pills, that their efficacy have almost appeared miraculous. Let the patient who doubts this try them, and he will find himself equally delighted and astonished.

Oath before the Mayor.

State of Missouri, }
County of St. Louis, }
I, Doctor A. G. BRAGG, being duly sworn, depose and say, that his Sugar Coated Pills, now so generally known throughout the southern and western States, do not contain one particle of Mineral of any kind, as has been erroneously stated. He further states that he is at this time manufacturing and putting up ready for market from 25 to 30,000 boxes of these pills per week—and that the orders and calls from agents and others for these pills, have become so numerous, even at this healthy season of the year, that some applications are necessarily delayed from ten to twelve days, on account of the inability to manufacture them fast enough to supply the increasing demand. Dr. Bragg further states, that it is his intention to extend and increase his manufacturing until he can furnish the southern and western States with an ample supply of this celebrated pill.

A. G. BRAGG.

Comstock's Gems in Poetry.

"Behold! for thy sake curdled is the earth,
And venom'd thorns shall rend the birth."
Such the dread sentence our first Parents heard,
When beauty tempted—and weak Adam erred.
And sad experience writes in words of fire
That Earth Still Writeth beneath that sentence
For lo! the regions of the boundless West
The matchless verdure of the Forest bowers,
The sumptuous hues of her unnumbered flowers,
Her streams whose limpid mirrors give to view
As fair a sky as e'er Italia knew—
But ah! that beauty—like a coquette's kiss
Leads but to sorrow—while it points to bliss,
Forignant disease here sways his sceptre pale
And shivering Ague has his abode
In valleys fair as seraph ever trod.

Ains! a beautiful landscape cannot please
The sunken eye bedim'd by a disease
That saps the body and unmans the soul
I'll very aptly usurp the whole.
And life is shrouded in a rayless gloom,
Dark as the sombre shadows of the tomb.
Such nights of woe will soon be past and gone,
A morn has dawned on each afflicted one—
Philanthropy rejoices to declare
"There is Balm in Gilead—A Physician there."
"Tis Winkop's Compound. Lo! at its approach,
Ague & Fever fly, nor dare approach,
Against on Health's boss'd realms, (we scorn to
For "Felix" Lucie" take one word of praise,
Or prompt a hope, that when the Kankadee,
Like shadows at Aurora's glance will fade.)

No! pallid beauty get again may wear
The rose of health so beautiful in the fair,
And strengthless manhood yet again may feel,
As each wasted limb new vigor steal,
Already glowing with its means rejoice
In Health's strength and gain their voice
To swell its lofty fame. Then come and buy
And trial, all we've sung will justify.
The above famous medicine is offered to suffering humanity at the low price of one dollar per bottle at J. COMSTOCK'S Variety Store.

Dr. A. Turner, Disordered Eyes,

Would respectfully announce to that unfortunate class of community who are laboring under Disordered Eyes, that he has located in the Village of Plainfield, and is prepared by his new and unique method of treatment, to take charge of, and cure, all such cases of Ophthalmia as have been hitherto regarded incurable.

Those who have either from the judgment of their Physicians, or the great length of time they have suffered, regarded themselves as doomed to perpetual pain or darkness, may take new courage, in view of the unparalleled success attending that particular mode of treatment of the Eye, as adopted by Dr. TURNER; and only in use by three others in the United States.

Dr. T. will also attend to the wants of the public in the treatment of female diseases, and especially that distressing malady, called hemorrhoids or piles, which are treated on scientific and rational principles.

Dr. T. received his education in one of the best medical colleges in the United States, and is also familiar with the latest hospital practice; and therefore feel fully prepared to exercise his professional skill upon scientific principles.

His treatment of the Eye, no fee will be taken until an improvement is experienced.
